

Printer Sleep Timer Delay

Setup Guide

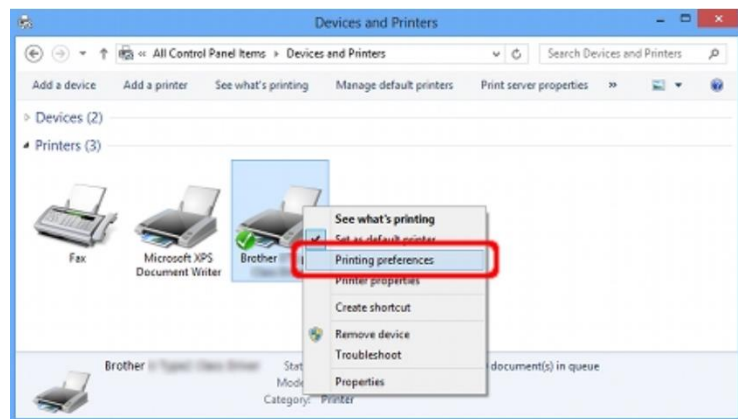

1 .This guide is how to adjust the sleep timer delay on a brother HL series printer.

1. Click start button in the bottom left

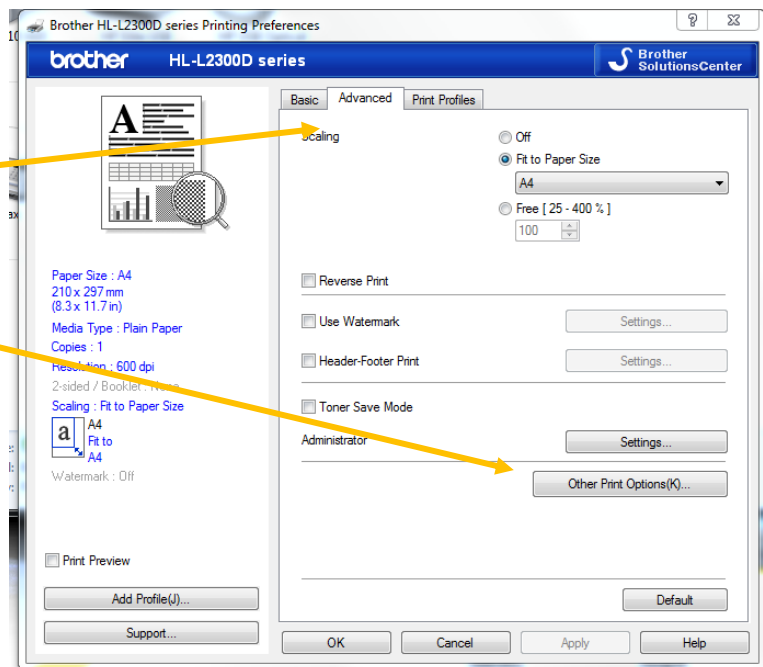

2. Click Device and printers

3. Right click the brother printer set as default and select "Printer Preferences"

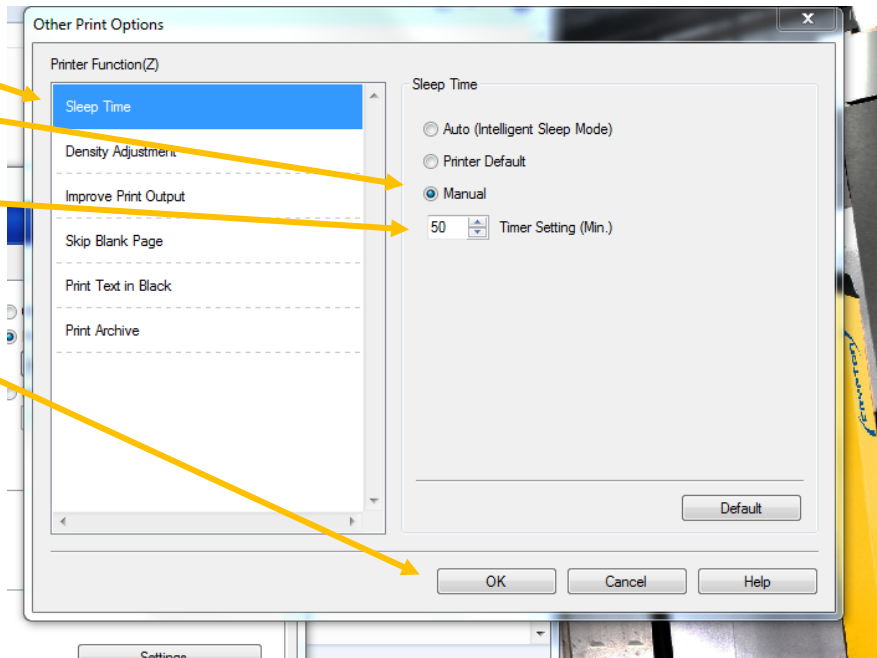

4. Click the "Advanced" tab at the top

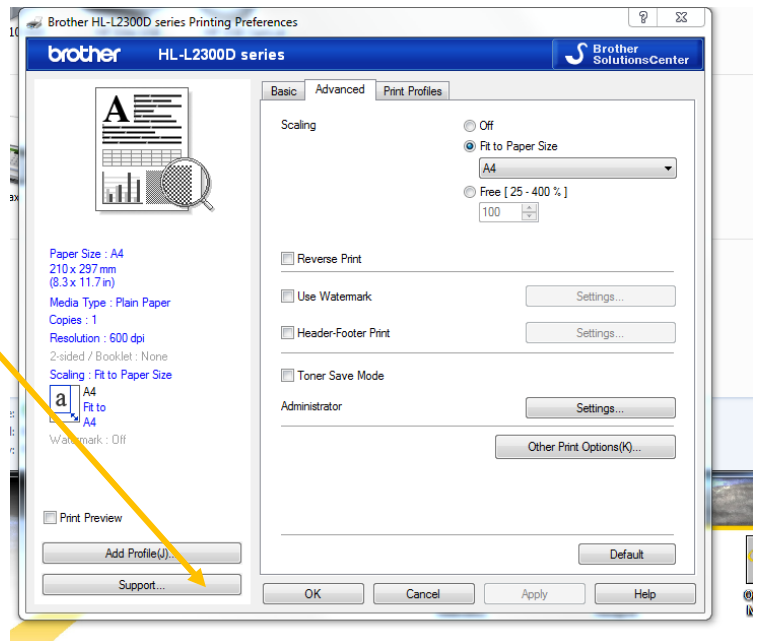

5. Click "other printer options"

6. Select "Sleep time"
7. Select "Manual"
8. Adjust the Timer Setting to 50 minutes.
9. Click "OK"

10. Click "OK" to close the printing preferences window, the timer delay time will now be set to 50 minutes.

With all the quality, service and backup you would expect from a UK company with a long standing history like Crypton.
