

CRYPTON

Roller brake tester for Cars and Vans type : CBT6500

Standard:

- ✓ Analog control unit with microprocessor controller .
- ✓ Fully automated test.
- ✓ Manual motor run.
- ✓ RTB suitable for testing 4WD vehicles
- ✓ Immediate reaction to the brake force change ment (strain gage transducers).
- ✓ Slide indication .
- ✓ Printer connection.
- ✓ Safety functions during the system start up.
- ✓ Motors / transducers IP55.
- ✓ Heat galvanized version.

Option:

- Infrared remote controller.
- Wired remote controller.
- Printer.
- Pedal force meter.
- PC connection.

Roller brake tester for Cars and Vans

type : CBT6500

	Roller Brake Tester
Technical data	CBT6500
Maximum axle load	4 000 kg
Maximum brake force	6 kN
Maximum pedal force	1000 N
Test speed	3.6 km/h
Roller dimensions	205 x 700 mm
Distance of rollers	390 mm
Rollers elevation	0 mm
Measuring system	strain gage transducers
Minimum/maximum wheel dimensions	400 / 800 mm
Weights	
Roller brake tester	585 kg
Control unit	70 kg
Basic dimensions	
Roller brake tester	2348 x 680 x 335 mm
Control unit	600 x 260 x 1750 mm
El. supply	
Total load	8 kVA
El. connection	3NPE~50Hz, 400 V / TN-C, -S
